# Finding the next multiple of 10

## Sheet 1

- Count the beads
- Find the next multiple of 10.
- Count up to get to this.

e.g. a. 18 beads      b. 20      c.  $18 + 2 = 20$

1. a.      b.      c.

2. a.      b.      c.

3. a.      b.      c.

4. a.      b.      c.

5. a.      b.      c.

Choose a 2-digit number.  
Write an addition to make the next multiple of 10,  
e.g. I choose 64. I write:  $64 + 6 = 70$ .

Do this five times.

*Hint: Use a 1-100 grid to help.*

### Challenge

Look at the multiples of 10.  
Can you find any pairs which add to make 100?
