

Times table wheels

Use whiteboard marker to write the multiples of the timetable you need to practise on each peg.

Then time yourself matching the peg to the right number sentence.

To challenge yourself further, go backwards - you can only remove a peg, if you know the number sentence underneath - so
 $25 = 5 \times 5$.

Try to beat your time the next time.

1 times table

$1 \times 1 =$

$4 \times 1 =$

$12 \times 1 =$
