

## Choose a Challenge

Choose a challenge that stretches you, that you will sustain effort with and that you're interested in.

### Challenge 1

Imagine you have just met an alien that has arrived on Earth from another planet.

They do not know about COVID-19.

You need to write a description to them explaining what it is and why you are not at school.

You can describe your personal thoughts and feelings too.

### Challenge 2

Design your perfect house.

What does it look like? Is it similar to houses today or is it completely different? What are the special features? Is it environmentally friendly?

Draw a diagram with labels. Write an explanation describing it in detail.

### Challenge 3

Create a fact file for your favourite animal.

Include facts, pictures, information, their needs etc.

You can email me a picture of your challenges to [rebeccawalker@online.sch.im](mailto:rebeccawalker@online.sch.im)
