

## Another message to you fabulous bunch!

Hi everyone,

How are you all? I hope that you are well and looking after each other at home. How is learning at home going?

I am still finding things so strange with not being back at Laxey School and when I am working at The Hub in Onchan I make sure that I drive from Ramsey through Laxey, just like I would do every morning coming to work. It helps me feel like life is a little "normal" even though it is most definitely not! I also drive that way so that I maybe even see one of those fabulous goats that I love to spot!

I have really enjoyed seeing the videos and photos on Facebook of all the different things that you have been doing at home during lockdown. It makes me smile so much when I get to see you and all the fantastic ways that you are extending your learning and keeping those brains stretched!

I have an email account [nicolakerr@online.sch.im](mailto:nicolakerr@online.sch.im) and would love it if you would share any of your learning directly with me. I can then have a look at it and send back any feedback. It would also just be wonderful to see how you are doing with your learning whilst you have not been at school. Whatever you want to share with me is great! I really do miss seeing all the work that you do especially your Writing and Maths.

There is a link on the Laxey School website on the Year 2 part that takes you to a shared Google Drive folder that has lots of resources to help you with the topic that we are doing, like maps, weather charts and money resources for example. I have added some more resources in folders for Writing and Maths that I have mentioned in the extension sheet. These will help you with those challenges. There are also some websites that are useful for you too. <https://www.bbc.co.uk/bitesize> is a great website with lots of exciting things to do, even Music if you fancy a singalong!

When I have been at The Hub the children and I have been having a boogie with Oti Mabusse from Strictly. My dancing is definitely improving and I have learned some new moves too! Have a look at that if your dancing feet need some work!

Year 2, I miss you so very, very much especially your smiles and you have always amazed me with the effort and focus that you showed in your challenges every day! You are a wonderful class and each one of you has come such a long way since you started Year 2 in September. I cannot wait until I get to see you all again and we can pick up where we left off...being awesome!

Take care and stay safe, Mrs Kerr
